Grand Prix medium service to the attention of (bike) sport agencies, relations and sponsors
07-11-2009; Report concerns qualification GP Valencia, circuit Valencia (4.005m)

Randy Krummenacher (15th) will start from 4th row in Valencia Danny Webb (28th) crash out early in qualification session

During the qualification session of the GP Generali de la Comunitat Valenciana the Swiss rider Randy Krummenacher brought his DeGraaf Grand Prix Aprilia to a 15th position. Team-mate Danny Webb crashed out already in the early stage of the session and wasn't able to continue. Webb will start the last race for the DeGraaf Grand Prix Team from the 28th position.

The morning session was ridden in good weather circumstances without the strong wind from yesterday. Krummenacher used this session to finalize the set-up of his Aprilia. The Swiss teenager ended the session on a good 11th position with only 0,8 seconds behind the fastest rider of the session Sergio Gadea. Danny Webb had this morning less pain on his foot and was able to ride faster lap times than the Friday session. Webb finishes the session on an 18th position.

In the afternoon when the qualification session started, the hard wind was back. After a delay of five minutes the session started and five minutes later Danny Webb crashed. On the TV it didn't look good but it was for sure that the British rider couldn't continue the session. After a medical check it was clear that, next to his broken left foot, there was a little fracture in his right foot. Luckily Webb was able to leave the medical centre walking and with a good feeling he will start in the last race of the season tomorrow. Webb qualified in the end on P28.

Randy Krummenacher tried to get several times a good slipstream to avoid the influence of the heavy wind. Krummenacher managed to improve his lap times every lap. In the last minute of the session and also last lap, Krummenacher had a really good pace and was till split three very fast. Unluckily Nicolas Terol passed Krummenacher in the last turn and pushed him from the line. Krummenacher lost a couple of tenths of a second and finished on the 15th spot.

Randy Krummenacher (15th, 1:42,767): "It is really a shame that my fastest lap was messed up by another rider. This action cost me at least 0,3 seconds or even more. I know I have the pace for a top 10 position but starting from the 4th row isn't so bad. We still have to decide which front tire we will use in the race. We make the decision in the warm-up session tomorrow morning and this also depends how we going to change the front suspension. I need some more pressure on the front to keep my lines better. I want to end the season with a good result so we will go for it tomorrow!"

Danny Webb (28th, 1:44,284): "I don't know what happened but I do know it was a painful crash! I'm already injured with my left foot but after a check in the medical centre it was clear that I also have a little fracture in my right foot. I just lost the control of my bike and I had the feeling I didn't went fast. I still can walk so I'm not worried for riding the race tomorrow. After a good night sleep and a couple of pain killers, I try to grab some points in the race."
