Tough race for Randy Krummenacher (10th) and Danny Webb (DNF) in Barcelona

De Gran Premi Cinzano de Catalunya race was a difficult and tough one for the DeGraaf Grand Prix Team. Randy Krummenacher had an ok start but lost a lot of positions in the first lap and dropped back to P16. Krummenacher had a catch up race and fought back to a 10th position and scored 6 points. Danny Webb had a superb start but couldn't hold the whole race with his hand injury and call it a day in the 13th lap.

During the warm up session, which started at 08.40 hour, it was already hot with 24 degrees. Randy Krummenacher had a good session and ended the session at a nice 7th position. Danny Webb used the session only to ride in the piston of his Aprilia and gave his hand some rest to save it for the race.

The temperatures were above the 30 degrees during the race. Under these circumstances it is really tough for the riders to stay focussed. The start of Randy Krummenacher was good but the Swiss rider lost a lot of positions during the first lap and dropped back to P16. Krummenacher managed to ride a good race and was battling for the 9th position. In the last lap Krummenacher lost one position and finished at the 10th position.

Danny Webb had really a superb start. Before the first corner Webb was even second. After the first lap the British rider could fight with the leading group at P7. After three laps his hand couldn't hold it any longer and Webb had to give away every lap positions. After 13 laps Webb call it a day and went into the pit lane to avoid forcing his injury.

Randy Krummenacher (10^e): "This isn't the result I was hoping for. I didn't had a good first lap and lost a lot of positions. After a couple of laps I could ride good lap times and tried to catch up riders. I manage to connect to a group which was battling for the 9th position but I finished 10th. Looking at mine starting position it isn't a good result but than again, I scored 6 valuable points. Next race will be the home race for the team and I will try to catch a fantastic result for them."

Danny Webb (DNF): "I tried to complete the full race but I couldn't do it. Mine had been hurting so much, it was impossible to brake at the right moments. The start was perfect and I could last for three laps and than I had trouble to brake. I have a couple of weeks rest now and I want to be fit for the Dutch TT. During this home race for the team I want to grab a really good result."
